

INTRODUCING

THE
ULTIMATE
TAILGATING
EXPERIENCE

The exciting new GAME DAY trailer truly is the "Ultimate Tailgating Experience"! Featuring three large swing-up doors that reveal a 70" flat screen TV with sound system and two bar areas, this one-of-a-kind unit was designed with tailgating in mind.

Each bar area features a durable aluminum table which conveniently flips up and into the trailer during travel. Optional stools make this bar very functional, especially when utilizing the optional Xbox systems and 60" flat screen TVs.

A large four-door refrigerator/freezer can run off electric or LP, while the kitchen area offers a microwave and plenty of all-aluminum storage.

The back side of the trailer offers the added convenience of his and hers bathrooms complete with commodes, sinks and overhead storage areas.

Popular options include custom outdoor sofas; a portable, stainless steel grill; portable stainless steel kegorators (mini fridges for kegs); bar stools; an Onan quiet LP generator to power everything and more!
